Dear FCC,I love my XM radio. When I heard that they were going to offer local weather and traffic, I was elated. I stopped listening to my local broadcast radio stations completely a few months ago because of the repetative programming and commercials. Now that I don't have to wait for an FM channel to stop playing music and commercials to give me weather and traffic when I'm in a traffic jam. GREAT! I'm paying for this service, why should a government group get to decide what I pay to listen to in the privacy of my own car? You already took the Howard Stern Show from me, don't take this from me as well.
